### How will the Bond Affect Taxes?

If passed, the bond is estimated to increase the I&S (Interest & Sinking) tax rate by \$0.04. For RISD homeowners under age 65 with a home of an average market value of \$500,000, this results in an estimated annual increase of \$124, or \$10 per month.

### No Tax Increase for 65 or Older

Homeowners 65 or older are not impacted by a tax increase because they qualify to have their property tax levy frozen when they turn 65.

*The frozen tax levy does not stay in place if a homeowner makes a substantial improvement to their home.*

Richardson ISD is one of a handful of Texas school districts that maintain the **highest available bond ratings**. This lowers the costs of issuance and results in further cost savings as the strong ratings enable RISD to achieve low interest rates on the debt.
